

Roger Gray

Group Supplier Development Manager Parker Aerospace

Roger Gray is responsible for Supplier Development for Parker Aerospace. Named to the role in September 2022, he and his Supplier Development team represent 12 Divisions across the globe. They are responsible for supplier strategy and securing capacity to support the rapid growth of the Aerospace Industry.

He began his career in 1994 as a college intern for what is now the Hydraulics Systems Division in Kalamazoo Michigan. From there he has held roles in Manufacturing and Design Engineering, Product Development, Operations, Supply Chain,

Business Development and Program Management in both the Aerospace and Industrial arenas.

Roger holds an MBA from Michigan State University and a bachelor of science degree from Michigan Technological University along with a Program Management Professional Certificate.

Parker Aerospace is a global leader in flight control actuation, hydraulic, fuel, inerting, fluid conveyance, pneumatic, and lubrication systems and components used on virtually every commercial and military aerospace platform in production today, from commercial transports, helicopters, and business and general aviation, to military fixed-wing aircraft and unmanned aerial vehicles
